Certifications and Sustainability Features

SCS

The certification marks a significant achievement in sustainability and shows that we have taken the necessary steps to protect the environment and be socially responsible.

OEKO TEX

The main task of OEKO-TEX Standard 100 is to detect harmful substances in textiles to determine their safety. This product's PET panel has got the Class I (the highest level). Product class I have shown that the material free of any harmful substances and meet the human-ecological requirements of the standard established.

Manufactured for Disassembly

This product as been designed for disassembly which allows it to be easily taken apart at end-of-life for reuse, repair, or recycling. This innovative design philosophy not only prolongs product usability but also simplifies waste diversion, lowers environmental impact, and reflects modern principles of circular design.

Australian Trusted Trader

OLP is an accredited Australian Trusted Trader, recognised by the Australian Government for our secure and compliant international trade operations. This accreditation signifies our commitment to ethical sourcing, customs compliance, and risk management allowing us to build stronger partnerships and deliver more efficient, transparent supply chains.

APCO

OLP is a member of the Australian Packaging Covenant Organisation. OLP is committed to reducing the environmental impact of our packaging. We use packaging that prioritises recyclability, and avoids excess plastic and other materials.

ISO 9001:2015 – Quality Management System

OLP has a Quality Management System (QMS) that focuses on continuous improvement in customer service to our clients, including the delivery of quality products and services that are manufactured and provided to the highest industry standards. By following our QMS we are able to control the quality of all products that we distribute regardless if they are custom one-offs or our standard range.

ISO 14001:2015 – Environmental Management System

OLP's Environmental Management System (EMS) gives us the ability to identify better allocations of our "resource, waste and energy management" minimising our environmental footprint. The focus on providing an eco-friendly environment has significantly reduced our environmental impact and subsequently our entire networks impact, with the hope that it continues to reduce going forward into the future.

ISO 45001:2018 – Occupational Health & Safety

OLP has adopted international best practices in our systematic approach to health and safety management, by focusing on a proactive approach rather than reactive controls. From this structure it is easy to see that OLP has a rigorous OHS policy and management system in place to protect the health and safety of our employees and visitors at all OLP facilities and sites.

Product Stewardship

OLP embraces product stewardship by taking responsibility for the entire lifecycle of our products, from design and manufacturing to use and end-of-life. We implement take-back schemes, offer recycling support, and partner with industry programmes to ensure products are disposed of sustainably. This commitment reduces landfill waste and promotes responsible resource use.

Customer satisfaction is an imperative component of the comprehensive service that OLP provides. OLP strives to meet objectives and deliver products and services to meet our customer's needs.

OLP also endeavours to provide a better product and ongoing service, to do this we follow our ISO 9001:2015 certified quality management system.

Business Development Managers
