

ORCA CHAIR

The Rapidline ORCA is a contemporary Scandinavian style design which combines aesthetics and functionality. The back rest is separated into 2 parts so that the lumbar support can be height adjusted according to different body heights to provide customised support and comfort.

This quality executive chair features a Midnight blue frame and black Korean mesh back rest, as well as a high-density black fabric seat, 3D adjustable armrests and five-star base. The chair moves with you throughout the day with its 4 locking positions, and seat slider for added depth.
